# Heritage® and NewStyle® Benefits

## Superior Quality

Heritage® and NewStyle® shutters are meticulously crafted with Truemill® dovetail construction, for strong panels that stand the test of time.

## Energy Efficiency

Close shutter louvers to keep warm air out when it's hot and in when it's cold, reducing energy costs.

## Healthier Indoor Air

Heritage® and NewStyle® Shutters are GREENGUARD® Gold Certified for low indoor chemical emissions.

## One-Touch Closure

Exclusive SoftClose™ louvers feature one-touch control so louvers close softly and smoothly—and Quick Align™, for easy louver alignment.

## UV Protection

When fully closed, Heritage® and NewStyle® shutters protect furniture, flooring and artwork from fading.

## Sound Deflection

Closed louvers deflect outside noise to keep your indoor space calm and quiet.

# Light Control and Privacy

**Daylighting**  
Shutters provide energy efficiency by drawing natural light into a room, reducing the need for artificial lighting.

**Split Tilt**  
For more privacy, choose split tilt with independent upper and lower louver operation.

**Divider Rail**  
Add strength to larger panels with divider rails, while allowing independent upper and lower louver operation.

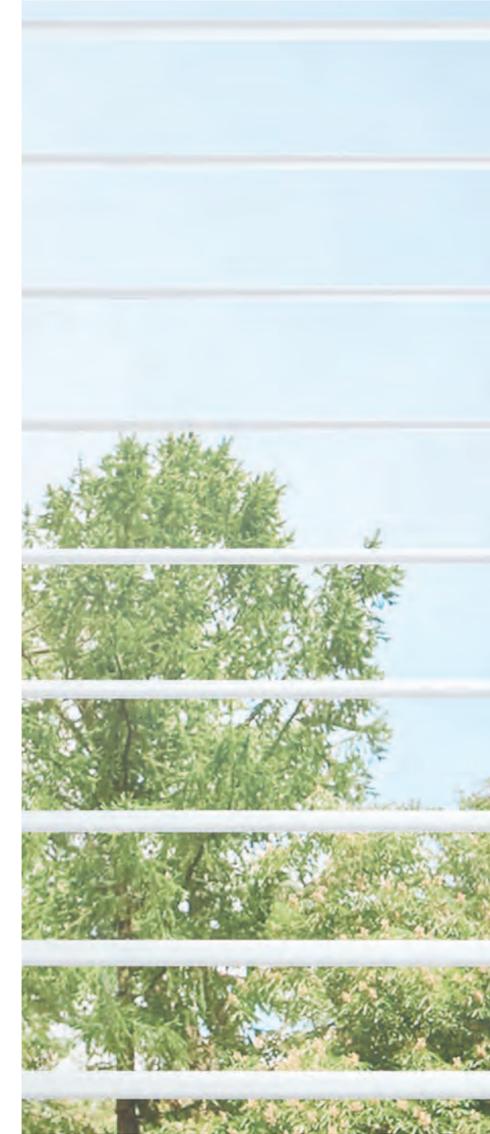

**Astragal**  
This feature covers the gap where two panels meet, helping to minimize any light passing between rabbeted stiles.

**2 1/2" Louver**  
Ideal for smaller windows

**3 1/2" Louver**  
A pleasing standard louver size

**4 1/2" Louver**  
Provides a more expansive view

Heritage® 7077 Zephyr with 3½" Louver  
and 1½" Modern Z-Frame  
Coordinates with NewStyle® 6683 Zenith

## Control Options

**Traditional Front Tilt**  
Front tilt bar connects louvers for easy tilt operation.

**SoftClose™ Louvers**  
A patented, self-closing mechanism features smooth, controlled louver closure with a single touch.

**HiddenTilt™**  
A gear-driven system with no external tilt bar offers unobstructed views.

## Bypass Track Systems

Bypass Track System with 5½" Standard Valance

Bypass Track System with Decorative Valance

**Bypass Open Louver Track System**  
This track system allows shutter panels to slide with the louvers in an open position for increased view-through.

**Bypass Triple Track System**  
With a three-track design, panels slide and stack in less space than a standard Bypass Track, allowing for improved view-through within a single opening.
