Control Option PowerView® Automation

# Benefits

## UV Protection

Screen fabrics help control harsh UV rays to keep furniture, flooring and artwork from fading.

## Sustainable Fabrics

The fabrics in the Eco Collection feature recycled content, including one with recovered shoreline plastic.

## Enhanced Comfort

Fabrics are designed to reflect the sun's rays, reducing glare and keeping rooms cooler.

## Product Versatility

Create a cohesive look at the window with fabrics available in both Designer Screen and Skyline® Panels collections.

## A Better View

Choose fabrics in higher openness factors (a looser weave), for an optimal view outside the window.

## Expansive Sizes

Wide widths and long heights provide coverage for larger windows throughout any home.

# Solar Optical Properties

Screen fabrics protect your home from the sun's heat and glare. The following categories measure the solar properties screen fabrics provide.

<b>Solar Transmittance (Ts)</b>	The amount of solar energy that passes through the shade—the lower the number, the higher the performance at reducing solar energy.
<b>Solar Reflectance (Rs)</b>	This rating measures the amount of heat reflected away from the window—a higher number means the shade performs well at reflecting solar energy.
<b>Solar Absorption (As)</b>	The absorption of light and heat, a low number means the shade absorbs little solar energy.
<b>Visible Light Transmittance (Tv)</b>	The percentage of light radiated through the fabric—the greater the number the less light that passes through the shade.

Some of the fabrics in this collection have been rated using the categories above and this information is provided on the back of the style decks.

# Fabric Features

### Light Colored Fabrics

Light colored fabrics provide a softer view-through, reflect light, helping prevent heat gain (which reduces cooling costs) and block UV rays, keeping furniture and flooring from fading.

### Dark Colored Fabrics

Dark colored fabrics provide a crisp view-through, reduce glare and absorb light and heat, keeping a room cooler.

# Light Control and Privacy

### Most View – Least Privacy

Daytime View: Softer Focus      Openness: 10%  
 Privacy: Negligible              UV Blockage: 90%

### Moderate View – Some Privacy

Daytime View: Softest Focus      Openness: 5%  
 Privacy: Moderate              UV Blockage: 95%

### Some View – More Privacy

Daytime View: Limited Focus      Openness: 3%  
 Privacy: Increased              UV Blockage: 97%

### Least View – Most Privacy

Daytime View: Minimal              Openness: 1%  
 Privacy: Maximum              UV Blockage: 99%

### View from outside shown at 3%

### Most View – Least Privacy

Daytime View: Sharp Focus      Openness: 10%  
 Privacy: Limited              UV Blockage: 90%

### Moderate View – Some Privacy

Daytime View: Diffused Focus      Openness: 5%  
 Privacy: Average              UV Blockage: 95%

### Some View – More Privacy

Daytime View: Minimal Focus      Openness: 3%  
 Privacy: Improved              UV Blockage: 97%

### Least View – Most Privacy

Daytime View: Minimal              Openness: 1%  
 Privacy: Maximum              UV Blockage: 99%

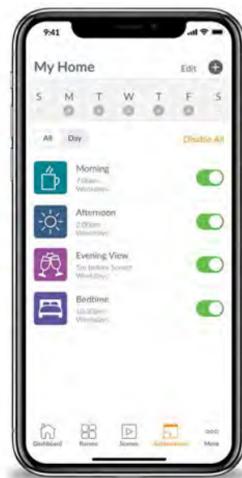

### View from outside shown at 3%

Note: View varies by fabric color and openness factor.

# PowerView® Automation

CONTROL  
OPTIONS

- Convenience**  
Achieve your perfect light automatically
- Privacy**  
Schedule shades to close whenever you prefer
- Energy Efficiency**  
Program shades to be in the best positions throughout the day
- Security**  
Remote control gives the illusion that you're always home
- Child Friendly**  
Simple, cord-free operation
- Battery Powered or Hardwired**  
For seamless installation, operation and maintenance
- Voice Control**  
Compatible with smart speakers and smart-home systems

CONTROL  
OPTIONS

# Control Options for Screen Shades and Skyline® Panels

**Custom Clutch for Screen Shades**  
Patented system provides superior functionality, shade-to-shade lift uniformity, precise operation and a minimal light gap.

**SoftTouch™ Motorization for Screen Shades**  
Battery-powered motorization system designed for simple wand-controlled operation.

**Concealed Control for Screen Shades**  
Shroud conceals continuous beaded loop, which uses patented custom clutch system.  
Note: Available only in Canada.

**UltraGlide® for Screen Shades**  
Gently pull a single retractable wand to lift and lower shades.

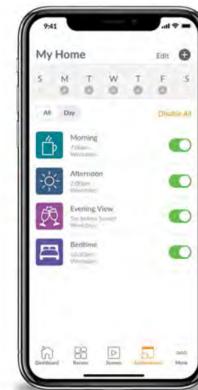

**LiteRise® for Screen Shades**  
Cordless system makes raising and lowering shades easy. Simply push up to raise and pull down to lower.

**Wand Control for Skyline® Panels**  
Traveling wand traverses panels and provides smooth operation without cords.

Fabric Lichen 8% Color Conifer  
Control Option PowerView® Automation,  
also available for Skyline® Gliding Window Panels

# A Day With PowerView®

**7:00 AM Morning**  
Schedule shades to operate at your preferred wake-up time.

**2:00 PM Afternoon**  
Shades adjust to protect furnishings from harsh midday sunlight.

**5 Minutes Before Sunset**  
Based on your local sunset time, shades open to reveal your best view.

**10:30 PM Bedtime**  
Shades close automatically for privacy and a perfect night's sleep.

CONTROL  
OPTIONS

CONTROL  
OPTIONS

## Screen Dual Roller Shade Option

Back Screen Fabric – Fully Raised

Back Screen Fabric – Partially Lowered

Back Screen Fabric – Lowered to Front Shade

### Screen Dual Roller Shade

This design option pairs together two individual shades. Select between 10%, 5% or 3% for the front shade and a Dakota Semi-Opaque or Swinton Opaque Roller fabric for the liner. Each shade moves independently, for flexible light control and privacy.

## Screen Duolite® Shade Option

Back Liner – Not Lowered

Back Liner – Partially Lowered

Back Liner – Fully Lowered

### Screen Duolite® Shade

This design option combines a 10%, 5% or 3% fabric with a room-darkening color coordinated liner. Fully lower the screen fabric for soft light; if you desire more light control or privacy, simply lower the liner.

## Skyline® Patented Hardware

### Headrail

The dual-channel, single track design allows for an infinite number of panels to be installed on a single headrail. With other standard panel track systems, the number of tracks expand as the number of panels increase. Available in 9 Custom Hardware colors.

### Fabric Hanger

Designed for fabric stability while adding a tailored look. Unlike other systems, our fabric is wrapped over and attached to the hanger providing greater fabric stability. White only.

### Bottom Weight

The innovative snap-on, snap-off system ensures stability and provides smooth operation. Available in 9 Custom Hardware colors.

Fabric Barista 1% Color White Mocha  
Control Option PowerView® Automation

## Skyline® Panel Width

Panel widths are determined based on the size of the window. Panel width can be selected so that all panels in various windows are the same.

11½" Panel

Default Less Than 56" Wide

17" Panel

Default 56" or Wider

## Skyline Panel Stack

Stack varies by shade size and panel width. For an unobstructed view, choose an outside mount.

Left Stack

Split Stack

Right Stack

## Skyline® Light Orientation

Control the direction light enters the room. For maximum privacy, select either a right or left facing panel orientation.

Panel Orientation

## Expert Design and Craftsmanship

For over 100 years, Hunter Douglas has been the industry leader in innovation. We offer the widest array of beautiful, high-performance, custom-made window fashions that are intelligently designed and assembled with relentless attention to quality.

## Designed with Safety in Mind

It is a Hunter Douglas priority to design products that are safer for infants, young children and pets. It's why Hunter Douglas has been the pioneer in developing innovative cordless systems and smart shade technology for your home.

## Lifetime Guarantee

As an expression of our desire to provide you with a fully satisfying experience, all products are backed by a Lifetime Limited Warranty. For enduring quality and a sound investment in your home, insist on Hunter Douglas.

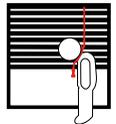

**⚠️ WARNING**

STRANGULATION HAZARD – Young children can be strangled by cords. Immediately remove this product if a cord longer than 22 cm or a loop exceeding 44 cm around becomes accessible.

**⚠️ MISE EN GARDE**

RISQUE D'ÉTRANGLEMENT – Les enfants en bas âge peuvent s'étrangler avec des cordes. Enlevez immédiatement ce produit si une corde mesurant plus de 22 cm devient accessible ou si le contour d'une boucle de plus de 44 cm devient accessible.

**⚠️ WARNING/  
ADVERTENCIA**

Window Blind Cord Can **STRANGLE** Your Child. To

prevent strangulation, purchase cordless products or products with inaccessible cords.

La cuerda de la persiana puede **ESTRANGULAR** a su niño. Para evitar el estrangulamiento, compre alternativas cuerda o productos con cuerdas inaccesibles.

**Child Safety Labels on Corded Systems**

These warning labels appear on window fashions with cords to make consumers aware of window cord hazards for children and pets.
