White

Bronze

Extruded Pocket Colors

5" x 5 1/2" Extruded Pocket  
with Cables

## Solar Panel Mounting Options

- Battery is pre-mounted to 24" removable access flap
- Solar panel can be ordered as face mount or satellite mount for back cover or soffit installations
- Motor, solar panel, and battery must all be on the same side but can be ordered left or right

Face Mount

- Access flap is cut at 24" for access to battery
- Solar panel mounting clips are mounted 1" up from bottom of front cover

Satellite Mount

- Access flap is cut at 24" for access to battery
- Solar panel can be mounted within 12" of the motor

## Battery Charging

- Insolroll recommends ordering one charger per project
- Solar-powered shades only need to be charged in applications that do not receive adequate sun exposure
