

PowerView®

Gen 3 Automation

HunterDouglas 

Smart Home. Smart Living.

PowerView® Gen 3 Automation
Has You Covered.

- Control your PowerView Gen 3 shades with our newly designed remote and your mobile device via the PowerView App. With Gen 3, every customer can enjoy virtually all of the benefits of the PowerView App without the need for additional components like a PowerView Hub.
- Designed to provide optimal operation from projects containing one shade to 400 shades, and every project in between.
- Built on the extremely reliable Bluetooth® Low Energy radio frequency (RF) protocol and features real-time two-way communication between the shades and the system. PowerView Gen 3 shades will be exactly where you want them, precisely when you want them.
- Setup time has never been faster and usability has never been easier. The entire configuration process has been redesigned to be done entirely through the app.
- Integrate shades with a variety of third-party control devices and systems through cloud-to-cloud and IP integration.
- To increase energy efficiency and sustainability, power your shades with our rechargeable battery solutions. These power options are not only environmentally friendly but also improve performance.
- Featuring PowerView+™ Gen 3 Automation, a premium control option in the PowerView family that utilizes a wired connection to both power and control PowerView+ Gen 3 window treatments.

Custom Control at Your Fingertips

PowerView® App

- The updated PowerView App offers an experience that is both familiar and exciting. Create your Home, program remotes and synchronize your lifestyle with ease all from the convenience of the PowerView App.
- Operate your PowerView window coverings individually, by Room, or throughout the home using Scenes and Automations.
- Our easy-to-use Dashboard keeps your favorite Scenes, Shades, and Automations at first glance.
- Use Automations to schedule Scenes to run at a specific time of day, or based on your local sunrise/sunset.

The Power of the PowerView Account

- RemoteConnect™ has been reimagined. Control virtually your entire home from anywhere in the world. Move individual shades, activate Scenes, create or edit Automations, and more!
- Receive low-battery notifications for Hunter Douglas shades.
- Synchronize with voice-controlled and other smart devices throughout your home.
- Log in with your PowerView account to access your Home across multiple devices.
- Extend Home access to other members of the household and guests, customizing the access level for different users.

Connected Compatibility

PowerView® Gen 3 Automation is designed to smoothly integrate with other industry-leading technologies to deliver a truly connected home.

The Future Is Now

- Smart home device adoption grows every year and is quickly approaching 50% of all households. Consumers are already taking advantage of smart home systems and devices, from lights to thermostats, and now PowerView window coverings.
- The new PowerView Gen 3 Gateway or Gateway Pro can be added to any PowerView Gen 3 system to provide integration with third-party control systems and devices.
- PowerView Gen 3 Automation works with Hey Google, Amazon Alexa and Apple® HomeKit® to control your shades with the sound of your voice.
- Synchronize with Control4, Crestron and other home automation systems to create a whole-home experience unique to your lifestyle.

Artfully Designed Control

PowerView® Gen 3 Scene Controller

- Offers convenient control of PowerView Gen 3 shades through Scenes, with or without a Gen 3 Gateway.
- The Gen 3 Scene Controller can be nested in a tabletop holder and is also designed to fit into standard Decora® wall plates.

PowerView Gen 3 Remote

- Redesigned with a modern, contemporary look while maintaining its compatibility with the PowerView Pebble® and Surface for convenient, child-safe operation.
- Easily program each and every remote entirely through the PowerView App.
- Provides precise control of your Gen 3 shades with a push of a button.
- Operate individual or groups of shades at once, and even create two custom Favorites per shade to set the perfect mood.

Express Your Style

- The PowerView Pebble offers hand-held operation in 10 on-trend colors.
- Use a PowerView Surface in any of our three finishes for stable, wall-mounted control of your automated window coverings.

Resources

Access a wealth of valuable information, all designed to help you better understand the ins and outs of PowerView® Automation.

- Visit the PowerView page in the U.S. at www.hunterdouglas.com or in Canada at www.hunterdouglas.ca.
- Visit The Learning Center at thelink.hunterdouglas.com.
